

ENVIRONMENTAL POLICY

Caia Park Partnership Ltd is a community development organisation that provides a range of services developed in response to the needs indicated by local residents.

Commitment to continuous improvement

As an organisation we are aware that our operations have an impact on the environment and we are committed to continually seek to improve our environmental performance.

Commitment to legislative and regulatory compliance

We will comply with environmental regulations, laws and codes of practice as relevant to our organisation.

Specifically we will;

- Raise awareness, encourage participation, hold discussions and train employees in environmental issues relevant to our operations.
- Monitor the progress of environmental performance by self-evaluation on a regular basis (Annually).
- Purchase and use recycled products, while reducing consumption of materials in general.
- Minimize waste by recycling where possible, and dispose of all waste through safe and responsible methods.
- Encourage alternative methods of transport where possible and maintain vehicles to reduce fuel consumption and lower exhaust emissions.
- Reduce energy and water consumption by implementing energy efficient products and conducting regular maintenance checks.
- Compost our own garden/food waste and develop wild life/natural habitat area.
- Purchase timber from sustainable forests, use reclaimed timber and recycle/re-use at every opportunity.
